

tp\_output.h

```
graph BT; tp_output_c[tp_output.c] --> tp_output_h[tp_output.h]; traceproto_c[traceproto.c] --> tp_output_h;
```

A diagram illustrating the relationship between three files. At the top is a gray box labeled 'tp\_output.h'. Below it are two white boxes: 'tp\_output.c' on the left and 'traceproto.c' on the right. Two blue arrows point from the bottom of these white boxes up to the bottom of the gray box, indicating that both source files include the header file.

tp\_output.c

traceproto.c
