refresh_covid19tunisia	2

Index	3
--------------	----------

```
get_info_covid19tunisia
```

Get information about the datasets provided by covid19tunisia

Description

Get information about the datasets provided by covid19tunisia

Usage

```
get_info_covid19tunisia()
```

Value

A tibble with information about where the data is pulled from, details about the dataset, what the data types are, etc.

Examples

```
get_info_covid19tunisia()
```

```
refresh_covid19tunisia
```

Refresh data

Description

Refresh data

Usage

```
refresh_covid19tunisia(verbose = TRUE)
```

Arguments

verbose Should messages about what's going on be displayed?

Value

A tibble of the most up to date per-day data on cases of COVID-19 in Tunisia, ordered by date descending.

Examples

```
refresh_covid19tunisia()
```
