

SPivotGrowth

sgssvx

main

```
graph RL; main --> sgssvx; sgssvx --> SPivotGrowth;
```

The diagram illustrates the execution flow of a program. It consists of three rectangular boxes arranged horizontally. The rightmost box is labeled 'main'. A horizontal arrow points from 'main' to the middle box, which is labeled 'sgssvx'. Another horizontal arrow points from 'sgssvx' to the leftmost box, which is labeled 'SPivotGrowth'. The 'SPivotGrowth' box has a light gray background, while the other two boxes have a white background. All boxes have a thick black border.
