

zStackCompress

```
graph LR; A[zStackCompress] --> B[copy_mem_doublecomplex]; A --> C[copy_mem_int];
```

The diagram illustrates a branching structure. A central node on the left, labeled 'zStackCompress', is a gray rectangle with a black border. Two blue arrows originate from its right side. The upper arrow points to a white rectangle with a black border labeled 'copy\_mem\_doublecomplex'. The lower arrow points to another white rectangle with a black border labeled 'copy\_mem\_int'.

copy\_mem\_doublecomplex
