

cpivotL

```
graph LR; cpivotL[cpivotL] --> c_abs1[c_abs1]; cpivotL --> c_div[c_div];
```

A diagram showing a node labeled 'cpivotL' on the left, which is a gray rectangle with a black border. Two blue arrows originate from the right side of this node. The top arrow points to a white rectangle with a black border labeled 'c_abs1'. The bottom arrow points to another white rectangle with a black border labeled 'c_div'.
