

cStackCompress

```
graph LR; A[cStackCompress] --> B[copy_mem_complex]; A --> C[copy_mem_int];
```

The diagram illustrates a branching structure. A central node labeled 'cStackCompress' is shown in a gray box. Two arrows originate from its right side, pointing to two separate white boxes. The top arrow points to a box labeled 'copy_mem_complex', and the bottom arrow points to a box labeled 'copy_mem_int'.
