

sallocateA

```
graph LR; sallocateA[sallocateA] --> floatMalloc[floatMalloc]; sallocateA --> intMalloc[intMalloc];
```

The diagram illustrates a function call or pointer relationship. A central box labeled 'sallocateA' has two arrows pointing to boxes labeled 'floatMalloc' and 'intMalloc'. The 'sallocateA' box is shaded gray, while the other two are white. All boxes have a thick black border.

floatMalloc

intMalloc
